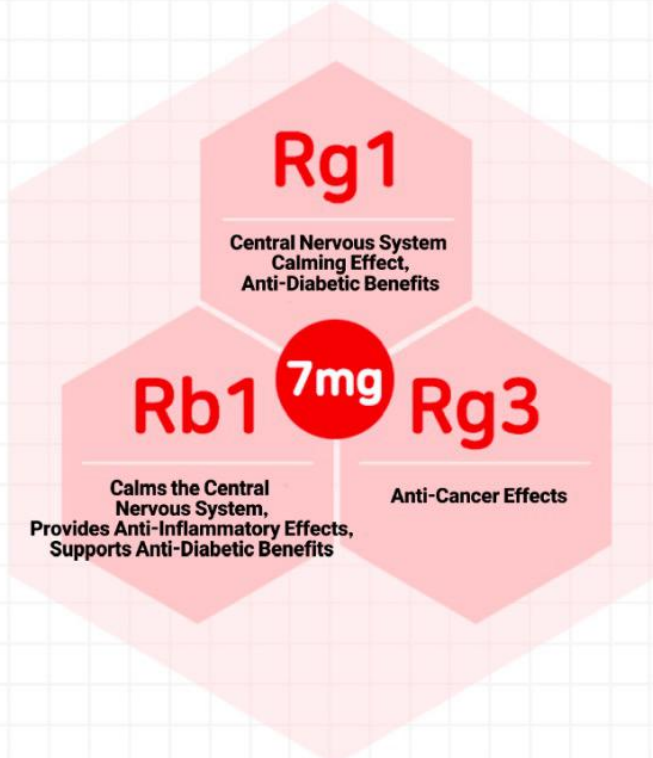
Check Point
01

Exceptionally High Content
7mg of Ginsenoside

What is "Ginsenoside"?

Ginsenoside is a type of saponin found in red ginseng, known for its beneficial effects in supporting the immune system of growing children.

The Ministry of Food and Drug Safety sets its standards based on the total amount of Ginsenoside Rg1, Rb1, and Rg3



Packed with Potent Active Ingredients!

"Why Do Children's Red Ginseng Products Have Lower Ginsenoside Content?"

"Because It Has a Bitter Taste!"

Kids' Red Ginseng Jellyhong is confidently delicious with its perfectly balanced formula!

Check Point

02

Made with 100% 6-Year-Old Red Ginseng Only!

100% 6-Year-Old Red Ginseng, Rich in Ginsenosides

Produced in Trusted Jinan, Jeonbuk

Jinan, Jeonbuk, is the ideal location for ginseng cultivation, with sandy loam soil rich in minerals and organic matter. It is also the only officially designated Red Ginseng and Herbal Medicine Special Zone in Korea, making it the true city of red ginseng.

Harnessing the Technology of Jinan Red Ginseng Research Institute!
